The tiny single-celled organisms known as radiolarians (or radiolaria) develop beautiful, intricate mineral skeletons that cover ocean floors throughout the world. Drawings of these microscopic life forms offer a rare and distinctive variety of artwork. Based on German biologist/artist Ernst Haecke's hard-to-find 1862 atlas of these seldom-seen creatures, this book and CD-ROM set presents a wealth of striking design options. 357 images.

Oceanic art or Oceanian art comprises the creative works made by the native people of the Pacific Islands and Australia, including areas as far apart as Hawaii and Easter Island. Specifically it comprises the works of the two groups of people who settled the area, though during two different periods. They would in time however, come to interact and together reach even more remote islands. The area is often broken down into four separate regions: Micronesia, Melanesia, Polynesia and Australia. Au
