There are 3 different kinds of STIs/STDs: bacterial, viral, and parasitic. Bacterial STIs/STDs are curable through treatment with antibiotics. Curable, that is, as long as you see a health-care provider, get tested and treated, follow through on all the medication, avoid sexual contact until cured, and make sure your sexual partner(s) get tested and treatment as well.

Cardiology News & Opinion - theheart.org | Medscape

Malignant melanoma has a steadily increasing incidence, but treatment options are still limited and prognosis for patients, especially for men, is poor. To investigate whether targeting estrogen receptor (ER) signaling is a valid therapeutic approach, we retrospectively analyzed ER gene expression profiles in 448 melanoma patients. High ER α gene expression was associated with
