Building State Capability Evidence Analysis

The Building State Capability (BSC) ... As I work, I am always trying to learn from the thoughts and analysis of others, and to find good teaching materials to use in engaging executives on the topic (materials that are easy to read, and offer pragmatic views that have some evidentiary backing in the broader literature). ... State failure ...

Why do public policies fail? Categorizing the challenges ...

Capacity building (or capacity development, capacity strengthening) is the improvement in an individual or organization's facility (or capability) "to produce, perform or deploy". The terms capacity building and capacity development have often been used interchangeably, although a publication by OECD-DAC stated in 2006 that capacity development was the preferable term.

The first is the Building State Capability: Evidence, Analysis, Action book which is available as a free download and the second is a set of short videos explaining the key concepts of PDIA. While the PDIA process is not linear, we recommend that you first read this toolkit in sequence to understand the steps. The toolkit has eight sections.

PDIA Toolkit | Building State Capability

Definition and issues. According to the political theories of Max Weber, a state is defined as maintaining a monopoly on the legitimate use of physical force within its borders. When this is broken (e.g., through the dominant presence of warlords, paramilitary groups, corrupt policing, armed gangs, or terrorism), the very existence of the state becomes dubious, and the state becomes a failed ...

Once these steps are complete, the results of the COG analysis must pass the "does/uses" test; that is, the center of gravity is the means (critical requirement) that has the intrinsic force necessary, which "does" the action (critical capability), but it "uses" or requires other resources (means) to "do" the action.

Three Approaches to Center of Gravity Analysis: The ...

Years of sustained, coordinated, and vigilant effort will be required to contain the present opioid epidemic and ameliorate its harmful effects on society. At least 2 million people have an opioid use disorder (OUD) involving prescription opioids, and almost 600,000 have an OUD associated with heroin (HHS, 2016). These numbers are likely to increase in the coming years, regardless of what ...
