Guy's inspiration came from the well known English Horologist John Wilding,and others. He has since made about thirty clocks of all types including Regulators, long case clocks, Skeleton Clocks and even some electric clocks. His recent clocks are his own design.Guy uses stainless steel for the frames instead of the more traditional brass.

### Meet Guy - Guy Luck Clocks

The careful craftsmanship and attention to detail are clearly demonstrated in each piece. Guy's inspiration came from the well-known English horologist John Wilding and others. He has since made about 30 clocks, about six a year, of all types, including regulators, long-case clocks, skeleton clocks and even some electric clocks.

### Clockmaking a labour of love - Constantiaberg Bulletin

Dear Julie, Matthew duly came and fitted everything in the Church earlier this week, and I am delighted to say that John Wilding, our resident clock keeper, informs me that the clock is keeping time to the second on every strike. He is very pleased! Will you please pass this on to Matthew and say how much we appreciated his efficient work.

### Bespoke clock makers for over 150 years - Smith of Derby

I've just embarked on the builing of John Wilding's skeleton clock (he's published a few books on various skeleton clocks, but this is his original book from some years back). I'm just starting in on the cutting out (piercing?) of the plates. Rather than chain drilling as Mr. W. shows in the book, I'm using a scroll saw with a metal cutting blade.
