@nimrod is it not the log4j-java that is the problem - if so if you do not have that freebsd package installed. I don't see how there could be an issue. edit: I don't even see that package or java anything as possible to install from the pfsense repository - so for java and or that log4j-java to be installed on your system it would have to be side loaded, etc..

Java log4j vulnerability - Is pfSense affected ? | Netgate ...
