EPL2 File - How to open or convert EPL2 files

Most people look at the extension of a file and then guess the type of file from that extension. For example, when you see a file with an extension of gif, jpg, bmp, or png you think of an image file, and when you see a file with an extension of zip, you assume the file has been compressed using a zip compression utility.

Determine a File Type Using the 'file' Linux Command

Unique file type specifiers. A unique file type specifier is a string that describes a type of file that may be selected by the user in an <input> element of type file.Each unique file type specifier may take one of the following forms: A valid case-insensitive filename extension, starting with a period (".") character.

<input type="file"> - MDN Web Docs

If you are on a linux/unix like system you can use the file command to determine the file type. There are three sets of tests, performed in this order: filesystem tests, magic number tests, and language tests. The first test that succeeds causes the file type to be printed.

c# - How to get the content/type of a file at runtime ...

What if the user upload a executable file with .doc extension? You could get the content type: multipartFile.ContentType(). This will return a MIME type string. To get the correct file extension you could search the file name string for the last dot and then split it at this position.
