There's also a wide selection of languages available, with everything from English to Farsi.

### Jabiru Engine Problems

The Jabiru 2200 engine mount offered for Legacy Sonex Aircraft will fit UL260-series engines. UL Power 260 and 350-series engines may be purchased from Sonex Aircraft, and technical support is offered by UL Power LLC. Engine packages include Exhaust, Baffle Kit, Alternator and Primary Fuel Pump.

### Engine Options - Sonex Aircraft

Engine Options for the Zenith Aircraft kit designs. The two seat Zenith models are designed to provide attractive performance using efficient and lightweight new-generation aircraft engines, like the UL Power and Jabiru 3300, while also being suitable for traditional but heavier aircraft engines such as the Continental O-200 and Lycoming O-233 / 235.

### Zenith Aircraft Company

The Sonex, Waix and Xenos are a family of lightweight, metal, low-wing, two seat homebuilt aircraft. Kits are produced and marketed by Sonex Aircraft, a small manufacturer based in Oshkosh, Wisconsin. By 2014, 500 customer built aircraft had been completed. The Sonex can also be built from plans. Company founder John Monnett was approached by an Italian business looking for an aircraft that ...

### Sonex Aircraft Sonex - Wikipedia

Two place with dual sticks. Rock back canopy mod. Has hydraulic disk brakes with rudder toe brake pedals. Sensenich prop. Dynon D180 panel with ADSB-out. Has airworthiness but out of condition inspection. Jabiru 2200 engine is older model with solid lifters. Camshaft is pitted and cylinders rusted. Good candidate for VW or newer Jabiru.

### Single-Engine - Barnstormers

A number of Farmans and Fokkers also had push-pull engine installations, such as the Farman F.121 Jabiru and Fokker F.32. Configuration [ edit ] Push-pull designs have the engines mounted above the wing as Dornier flying boats or more commonly on a shorter fuselage than conventional one, as for Rutan Defiant or Voyager canard designs.

### Push-pull configuration - Wikipedia

The 60-hp HKS 700E costs less than \$7000, while the 80-hp Jabiru 2200 is about \$8500. Real bargains for light kit builders come from the 28- to 37-hp Hummel engines at around \$3000, though this is for a kit and the engines obviously won't lift heavier aircraft. The BMW 1100S engine puts out 80- 100-hp depending on the developer.
