Semi-permanent repair. The FHWA manual cites the semi-permanent repair method as one of the best for repairing potholes, short of full-depth roadway replacement. It consists of: 1. Removing water and debris from the pothole 2. Making clean cuts along the sides of prospective patch area to assure that vertical sides of the repair are in sound pavement (Eaton, et al., recommend a bituminous tack ...

Now you need to remove this metal ring, to fully access the shutter mechanism. But you will need a specialised camera repair tool to unscrew this little "screw" (see picture below). Well, to do so I made my own tool.... out of an Iphone sim card ejector! Just cut it halway, file the border so it fits the tiny holes and bend it to the right ...

The ETA caliber 2824-2 is perhaps one of the most well-known and most recognized movements in the watch industry. It has been in production since 1982 and was based off of the original Eterna caliber 1427. The "-2" designation indicates that it is the 2nd generation in the evolution of the movement.
