The Suzuki method is a music curriculum and teaching philosophy dating from the mid-20th century, created by Japanese violinist and pedagogue Shinichi Suzuki (1898–1998). The method aims to create an environment for learning music which parallels the linguistic environment of acquiring a native language. Suzuki believed that this environment would also help to foster good moral character

The Symphonic bass was built in the UK, by Vox parent company JMI. It was the Vox equivalent to the Fender Precision bass, and was one of the most expensive Vox guitars produced. It was actually a great playing bass, rather similar to the Precision in feel and sound, but was probably just too expensive compared to an actual Fender and consequently sold poorly.

Hagstrom made the hollow-body Concord bass (initially named the Hagstrom Viking bass) from 1965 until 1971. Hollow body basses were very popular during the mid 1960s, with models such as the Gibson EB2, Epiphone Rivoli, Fender Coronado and Guild Starfire basses all capturing the mood of the times. Hagstrom guitars and basses were, of course, built in Sweden, and this was their first hollow ...
