The Spark of Life : Electricity in the Human Body by ...

In every organism on earth, electrical activity is regulated by proteins called ion channels. Ashcroft (Physiology/Univ. of Oxford; Life at the Extremes: The Science of Survival, 2000, etc.) argues that ion channels "are truly the 'spark of life' for they govern every aspect of our behavior." The author's research led to innovative new treatments when she discovered that ion channel mutations can cause diabetes.
