The Tremendous Twins Or How

The truth is that while there are several signs and symptoms of a twin pregnancy, there is also tremendous overlap with the signs and symptoms of singleton pregnancies. It is impossible to definitively know whether you are carrying twins (or multiple babies) by simply gauging how you feel or going off of what a home pregnancy test shows.

Signs and Symptoms of a Twin or Multiple Pregnancy

As a parent, you struggle with difficult decisions for your conjoined twins and the uncertain future. Outcomes can be difficult to determine, and conjoined twins who survive sometimes face tremendous obstacles. Because conjoined twins are rare, it may be difficult to find supportive resources.

This is because identical twins come from a single fertilized egg splitting in two and this is a random, rare event. Fraternal twins, on the other hand, can be genetic. Fraternal twins come from two separate eggs being fertilized by two sperm. Typically women only release one egg each cycle but women who conceive fraternal twins have released two.
