ATC-pie is an air traffic control simulation program. It features solo sessions, multi-player network and teacher-student connections. It is essentially designed for realism, and simulates real-life ATC tasks such as strip rack and sequence management, handovers to/from neighbouring controllers, transponder identification, flight plan filing, ATIS recording.

I already had been getting on the treadmill and walking for an hour at 3.5 mph five or six times a week with no appreciable decrease. I fully expected that it would be 6-7 weeks before I would see a result. Two days ago, two hours after my daily "workout" with the Zona I recorded a BP measurement of 123/78. I was astounded.
